

Greetings

Noriyuki Namba, MD, PhD
Chair, IMPE2027 / 60th JSPE

Dear friends and colleagues,

It is our great pleasure to invite you to the 12th International Meeting of Pediatric Endocrinology (IMPE2027), to be held in Yokohama, Japan, from September 23–26, 2027, in conjunction with the 60th Annual Scientific Meeting of the Japanese Society for Pediatric Endocrinology (60th JSPE).

As we gather here at ESPE 2026, we are already looking forward to welcoming the international pediatric endocrinology community to Japan next year. IMPE2027 will bring together colleagues from around the world to share the latest scientific achievements, exchange perspectives, strengthen existing collaborations, and inspire new connections across societies and regions.

With the full support of the Japanese Society for Pediatric Endocrinology, we are preparing a stimulating and diverse scientific program featuring leading experts and emerging voices from across the globe. Participants will also have the opportunity to engage with the 60th JSPE program, creating an even broader platform for scientific and professional exchange.

We hope IMPE2027 will be a memorable occasion to reconnect with colleagues, build new partnerships, and shape the future of pediatric endocrinology together.

We look forward to welcoming you to Yokohama in 2027!

Plenary Speakers at IMPE 2027

Confirmed distinguished speakers at the IMPE 2027 Plenary Sessions.

Kastuhiko Hayashi
The University of Osaka
(Japan)

Adda Grimberg
University of Pennsylvania (USA)

Yung Seng Lee
National University of Singapore
(Singapore)

Lara Elizabeth Graves
University of Sydney (Australia)

Vaman Vasant Khadilkar
Bharati Vidyapeeth Medical
College (India)

Yingke Xu
Zhejiang University (China)

We have more plenary speakers to be confirmed.
Please check our website for the latest information.

Call for Abstracts

The IMPE 2027 invites clinicians and researchers in paediatric endocrinology to submit scientific abstracts for presentation at IMPE 2027. Sharing your work provides an opportunity to reach the international paediatric endocrinology community, receive useful feedback, and strengthen networking and presentation skills.

Abstracts will be peer-reviewed by the Scientific Committee. Accepted abstracts may be assigned to an oral presentation or physical poster format. Final presentation format will be determined by the Scientific Committee.

All abstract submissions must be made electronically through the IMPE 2027 online abstract submission system.

Please check our website for detailed instructions.

ABSTRACT TOPICS

- Adrenals and HPA Axis
- Bone, Growth Plate and Mineral Metabolism
- Diabetes and Insulin
- Fat, Metabolism and Obesity
- Fetal, Neonatal Endocrinology and Metabolism
- GH and IGFs
- Growth and Syndromes
- Multisystem Endocrine Disorders
- Pituitary, Neuroendocrinology and Puberty
- Sex Differentiation, Gonads and Gynaecology, and Sex Endocrinology
- Thyroid
